

## From Reinsurance Systems Manager to Group CIO

Having been successful in finding a financial accountant for the 2003 newly established branch of a Bermuda based Reinsurance Group (the accountant was later promoted to Operations Manager and worked for the company for 13 years), we were commissioned in 2005 to look for a Reinsurance Systems Manager. Not only did the candidate very successful in setting up this position, but he also had additional potential, which enabled him to be promoted to Reinsurance Group CIO in 2015. He still performs this function successfully today.

This development shows once again that it is not only about the training, experience and personality that is important but also that the DNA must fit.

### **Do you want to be part of the success story in the Reinsurance-Business?**

Since November 2001, when AXIS started to write global reinsurance business, the company has become a significant player in several segments of the reinsurance market with units in Bermuda, New York and Zurich.

For the further development of the Reinsurance segment we are looking for a

## **Reinsurance Systems Manager**

You will be reporting to the Global Project Manager with direct responsibility to the Chief Executive Officers of the Bermuda, New York and Zurich units. You are responsible for developing and managing the IT business and processing needs for the Reinsurance segment in accordance with agreed AXIS IT strategy. This will include discussions with end users, development of detailed specifications, and liaising with the AXIS Global IT unit through all phases of development and acting as an interface with users and management. It will also include developing appropriate UAT plans and ensuring appropriate training and documentation is in place for implementation. You will provide ongoing support to users and act as the key liaison with the AXIS IT Maintenance support team.

Are you a hands on professional with at least five years experience in an international reinsurance company? Do you have strong project management skills and the ability to manage multiple projects simultaneously? Do you possess high levels of self-motivation and are you a process driven leader? Do you have excellent communication skills in German and English and the ability to aggressively promote and deliver business initiatives? Are you a problem solver? Are you willing to travel?

Are you interested? If so, please e-mail or send your CV to our consultant, Matthias Brägger, or call him for more information. Confidentiality guaranteed.
